

Cross-College Climate Conversations

Climate change is impacting all of us in a variety of ways. We all need to work together to limit further impacts and find sustainable solutions. Join the Kenan Institute for Engineering, Technology & Science Climate Leaders Program to learn how multiple colleges are approaching these issues, network with other students and faculty interested in these topics, find new collaborators and be a part of the solution conversation.

Registration is requested, but not required. <https://forms.gle/64SFRNYSMRW2CP947>
